• About me

I am a dynamic and versatile web developer with a passion for creating seamless, cool and innovative digital solutions. My expertise spans on both frontend and backend development. In addition to my technical skills, I bring strong communication skills, I'm a great team player and have full commitment to the projects I work on.

• Professional Experience

mar 2024 - now
(1 year & 7 months)

Celfocus

CRM / Salesforce Developer

Porto, Portugal

[\(link\)](#)

Developed salesforce platforms for customer engagement projects with Javascript, HTML/CSS (frontend) and Apex (backend); Collaborated on Salesforce projects with **TRH** for international telecommunications companies, including Cegid (France) and DNA (Finland); Performed bug fixing and troubleshooting on unreleased features to support smooth deployment and system stability; Enhanced website navigation and overall design to improve user experience (UX) and accessibility; Ensured successful and timely feature releases by working within Agile frameworks and collaborating closely with cross-functional teams.

mar 2021 - nov 2023
(2 years & 9 months)

AlticeLabs @ UA - Research Grant

Backend Developer

Aveiro, Portugal

[\(link\)](#)

As part of the CAMPUS project, I had the privilege of working on a multi-platform technology. In this role, I engaged in a range of key activities, including: Backend and frontend development: PHP (OOP), React JS; Rest API integration; Database management (SQL & NoSQL); System maintenance and optimization; System architecture and SysAdmin; Agile team environment; Built low-code gamification interface in a investigation context.
